PROFESSIONAL SUMMARY

Full Stack Developer specializing in MERN stack with experience in building and deploying scalable web applications using RESTful APIs and JWT authentication. Skilled in end-to-end development including frontend, backend, deployment using GitHub and Vercel and domain management.

EXPERIENCE

IT Support & Full Stack Developer

Zircon Home | Mankhurd, Mumbai, Maharashtra

December 2025 – Present

Engineered MERN application with admin dashboard managing 50+ records and CRUD operations.

- Implemented JWT authentication and role-based access control.
- Developed admin panel with real-time content updates.
- Integrated RESTful APIs for efficient data handling.
- Managed deployment including hosting, SSL, DNS and domain configuration.
- Resolved 7+ system issues and improved performance.
- Assisted in optimizing Google Business Profile for better local search visibility.

Application Developer

Shriram Infra and Tech Services LLP | Mulund, Mumbai, Maharashtra

June 2025 – November 2025

- Delivered 2+ full stack applications using React.js, Node.js, Express.js.
- Built APIs and implemented JWT authentication.
- Worked with MongoDB and MSSQL databases

PROJECTS

Employee Management System | MERN Stack

- Built MERN stack application with authentication and role-based access.
- Managed employee data, attendance, salary and leave system with admin dashboard.
